Relevant Courses: Introduction to Scripting Languages, Descriptive Statistics, Probability, Web Design and Development, Problem Solving, Discrete Structures, Digital Logic Design, Innovation in Web Design and Development, Introduction to Software Engineering, Computer Architecture, System Analysis and Design, Programming in Java, Programming in Python, Entrepreneurship and Innovation

PROJECTS

ChopAm API

github.com/Adebayo-jzs/chopam-api

Technologies: Express.js, React, Tailwind CSS, REST APIs.

ChopAm API is a Nigerian culinary REST API built to provide structured food and culture data in a developer-friendly format. The backend was developed with Express.js using a lightweight embedded JSON data store. The project included a responsive API documentation page and a mobile-optimized homepage designed to present Nigerian cuisine and cultural data in a clean, accessible way.

PageForge

pageforge-nu.vercel.app

Technologies: Next.js, MongoDB, Gemini API, Groq API, Tailwind CSS, NextAuth v5

- AI-powered landing page generation platform focused on quickly producing visually polished startup and SaaS landing pages.
- Integrated Gemini and Groq APIs in a fallback-based generation workflow, with MongoDB for dynamic content storage and NextAuth v5 for authentication.

TextCognito

textcognito.click

Technologies: React, Tailwind CSS, HTML, CSS, JavaScript

- Anonymous messaging platform with multiple frontend redesign systems explored using both JSX/Tailwind and traditional HTML/CSS implementations.

TECHNICAL SKILLS

Core Skills: Responsive UI Design, Web Development, Mobile Development, Component Architecture, Prompt Engineering, REST API Development

Development Tools: Next.js, React.js, Tailwind CSS, Node.js, Express.js, Resend, Paystack, PostgreSQL, Supabase, JavaScript, TypeScript, Figma, Framer, WordPress

Computer Skills: Microsoft Word, Excel, PowerPoint

ADDITIONAL INFORMATION

Languages: Fluent in English and Yoruba
